

Sådan kommer du igang

Kom sikkert i gang med jeres testkit - En kort oversigt

Forud for prøvetagningen, skal I læse vedlagte materiale og guides grundigt i gennem før I går videre.

- 1 Udpeg en repræsentant for virksomheden der er ansvarlig for at supervisere jeres prøver. Denne repræsentant skal gennemgå alt materialet og sørge for at guides og andet er læst og forstået grundigt.
- 2 Klik ind på: [Pentabase.com/ey/](https://pentabase.com/ey/). Vælg derefter det antal PCR-kit du har fået med og tryk 'Add to cart'. Indtast følgende rabatkode for at opnå 10% rabat: **ey-pcr2021** og tryk 'proceed to checkout' og betal.
- 3 Du modtager efterfølgende en ordrebekræftelse med informationer om dit køb. For at blive supervisor for prøverne skal du udfylde et spørgeskema. Spørgeskemaet indeholder spørgsmål der skal besvares. Følg dette link: <https://pentabase.com/pentabase.supervisor>
- 4 Når alle spørgsmål i spørgeskemaet er besvaret med 100 %, vil jeres repræsentant modtage certifikat som understøtter, at man nu er supervisor for prøvetagningen hos jer.
- 5 Sørg for, at jeres medarbejdere er oprettet i Pentabase journal system, og påbegynd test af dine medarbejdere.
- 6 Pak prøverne som anvist i det vedlagte guide-materiale.
- 7 Udfyld delivery note.
Indlever testene til én af de nærliggende laboratorier. I kan som virksomhed indlevere prøverne inden klokken 12:00 og modtage svar klokken 18:00 samme dag. Indleveres prøverne efter klokken 12:00, får man svar dagen efter klokken 12.
NB: Gælder testcentrenes åbningstider. Bemærk at nogle testcentre har lukket i weekenderne.
- 8 Vi analyserer prøverne og I får svar direkte på telefon, 'Min Sundhed' appen, og på jeres profil i PentaBases journalsystem.
- 9 Alt materiale og guide kan findes online her: <https://pentabase.com/spytttest-pcr-test/?lang=da>

How to get started

Get a safe start with the test kit - A brief overview

Before testing, you have to pick a representative for your company, and this person must read and understand the included material and guides thoroughly.

- 1** Appoint a company representative who will be responsible for supervising your samples. This representative must review all material and ensure that guides and other included documents are read and understood thoroughly.
- 2** Click on: [Pentabase.com/ey/](https://pentabase.com/ey/). Select the number of PCR kits you have received and press 'Add to cart'. Enter the following discount code to obtain a 10% discount: **ey-pcr2021** and press 'proceed to checkout' and pay.
- 3** After this, you will receive an order confirmation with information about your purchase. To become a supervisor for the tests, you must answer the following questionnaire. The questionnaire contains questions that must be answered correctly. After, the representative will be created as supervisor. Follow this link: <https://pentabase.com/pentabase.supervisor>
- 4** When every question in the questionnaire is answered with a result of 100 %, your representative will receive a certificate that supports the fact that they now are a supervisor for your sampling.
- 5** Make sure that your employees are registered in the Pentabase Journal system. Begin testing your employees now.
- 6** Now, pack your samples as illustrated in the included guide material.
- 7** Fill out the delivery note.
Deliver your samples to one of the nearby laboratories. As a company, you can deliver the samples before 12:00 and receive your results before 18:00 that same day. If your samples are delivered after 12:00, you will receive the results the next day before 12:00.
Please note that delivery must happen within the open hours of the laboratory.
Some laboratories are closed on the weekends.
- 8** We analyze the samples and you will receive your results directly on your phone, on your '**Min Sundhed**' app, and on your PentaBase profile in the PentaBase Journal system.
- 9** All material and guides provided in the kit can be found online here: <https://pentabase.com/saliva-pcr-test/>
